

THE ROBOTIC PARKING SYSTEM ADVANTAGE

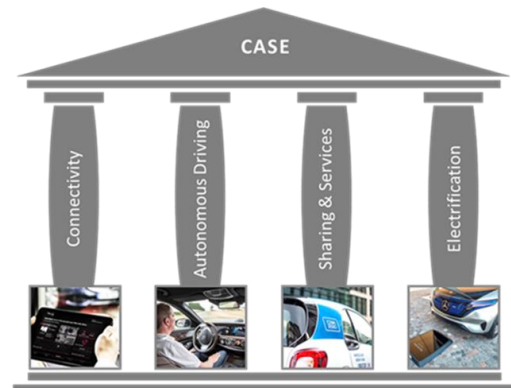

1. Double or triple the cars parked on the same footprint – OR – gain valuable floor area in an amount double the garage footprint.

2. Valet parking without the valet. Valet ease, but you keep the keys.

3. Emerging Technologies
 - * Connect to the cloud for i) self driving vehicles, ii) reservation and payment systems, iii) car sharing fleets and services for cars
 - * Autonomous driving into the robotic garage – partnership with Bosch
 - * Sharing cars and fleet management and servicing
 - * Automatic Level 2 electric charging

4. Moving toward zero carbon footprint.

5. Less cost for parking plus significant floor area gains bring your project into the winning zone!
